Answer the first three questions before moving on to your action items. There should be at least one item per the first three questions with a minimum of four items total, so at least one question will have more than one answer. In addition to an answer, list which team member contributed that answer. Once complete, move on to your action items, which you should write as a team. Come up with at least two action items.

### What went well?

- We are making progress on the source code and collaborating well. - Syniah

### What could have gone better?

- We could have walked through and planned the coding better to eliminate some of the excess and repeated code.

### What did we learn?

- The importance of communication and collaboration in group work.

### What are our action items?

- Complete the source code
- Complete the presentation
- Complete the demo
- Complete all meeting and sprint docs
- Upload all materials to GitHub
